

From the world market leader in mobile PCs: options and accessories for the Satellite Pro 4200 and 4300 series.

That little bit extra, from Toshiba.

Satellite Pro 4200/4300 options.

In Touch with Tomorrow
TOSHIBA

Discover the possibilities.

It takes something a little bit extra special to build a mobile PC that offers truly great value for money. With the Satellite Pro 4200 and 4300 series from Toshiba, that special something includes a comprehensive range of options and accessories that enable you to adapt your notebook quickly, easily and intelligently as your business grows. So whether you require easy peripheral or network connectivity, more memory, an in-car adaptor, or a docking solution that is also compatible with older

Satellite models, Toshiba has the solutions to help you adapt. And secure your investment. All options and accessories feature the same outstanding build quality we put into all our products, and are backed by the expertise, service and customer support of an extensive network of authorised resellers. Because when we build the perfect business notebook, we also want to make sure it stays that way.

Turn your notebook into a desktop PC. Toshiba docking solutions.

Port Replicator.

PA2731UE

Enjoy enhanced desktop connectivity with your Satellite Pro – without the usual hassle of cables and plugs. Simply slot in your notebook and all your peripherals are ready to use. The Port Replicator also features two USB ports, as well as microphone, headphone, and audio in and out sockets.

Card Station III Spacer.

PA2730U

(For use with Card Station III, PA 2717UYN)

The Card Station III Spacer is a highly practical solution that enables you to use the latest Satellite Pro notebooks on an existing Card Station III. As well as dispensing with the need to purchase a new docking solution for your new notebook, there's none of the hassle associated with integrating new hardware into your existing network environment. (Not shown.)

Card Station IV.

PA3024E-1PRP

This new docking solution is designed to integrate your Satellite Pro with additional functionality in the office or home. With instant connectivity to all your peripherals, it also offers the convenience and flexibility of instant connection to additional peripherals or communication via PC Card slot. Interfaces include serial and parallel ports, PS/2™ ports for mouse and keyboard, two USB ports, audio in and out sockets. The Card Station IV also features a highly practical integrated cable management system.

Get the most from your Satellite Pro.

Memory expansion modules.

***PA3003U-K, **PA3004U-K, ***PA3005U-K**

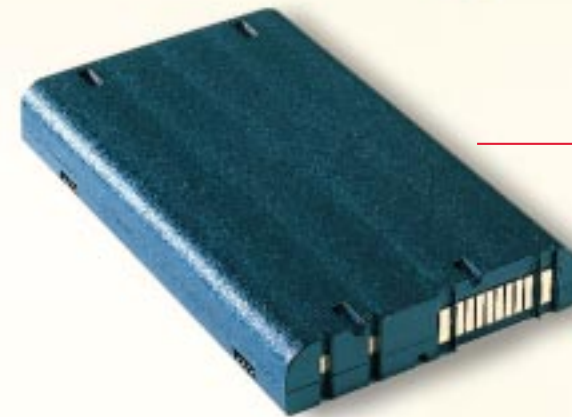

Adding memory not only speeds up your work, it also lengthens battery life. Each one of our 32*, 64** and 128*** MB memory modules is designed to the highest standards and rigorously tested before shipping to ensure total reliability.

Battery charger.

PA2488UE

A battery charger not only increases your power options on the road, it can also be used to recharge batteries without having to close down your notebook. Thanks to the charger's electronic control system, it is impossible to overcharge a battery, ensuring maximum battery life for years to come.

Battery packs.

PA2487URG

On those occasions when mains power is in limited supply, it is essential to have at least one backup battery pack in reserve. Packs can be swapped without having to shut down your machine, and feature the latest eco-friendly lithium ion technology.

Spare AC adaptor.

PA2500UY

A spare AC adaptor ensures fast, reliable access to mains power at home. Auto-sensing technology is used to detect any voltage from 100 to 240 V, making it ideal for use anywhere in the world.

PA2444UY

60 watts spare AC adaptor for the Satellite Pro 4300 series. This shall be used if the Satellite Pro 4300 is connected to the Card Station III via spacer. (Not shown.)

In-car adaptor.

CAT30A

Even when travelling by car, Toshiba notebooks can help you make the most of your time. With the in-car adaptor, you can now run your Satellite Pro notebook and recharge your battery packs straight from the cigarette lighter.
